

**Song of the Sands set to the music of the song SOS by ABBA
by Liz Barwick**

Here on my shifting sands where all my grey seals play
It seems beyond belief that it must go away
Whatever happened to my place
I wish I understood
And must I be destroyed because man says I should?

But to save the Goodwins everybody could sing
SOS
Let them not enslave me, nothing else can save me
SOS
When I'm gone
(Just) how will my creatures go on?
When I'm gone
(Just) how will your shoreline be strong?

Here in my shifting sands I hold a thousand graves
And I have held them safe from many thundering waves
Whatever happened to my place
I wish I understood
And must I be destroyed because man says I should?

When I'm gone ...
Etc
